[Learn more.](#)

# Why Ireland?

growing

Economy is 10x and population 3.7x larger and larger than Estonia

fin ferys

Home to 50% of the world's leading Financial Services firms

connected

High e-GDP and home to 90% of the world's leading tech companies

fintech

Strategically committed to FinTech, from light touch regulation to global growth

brexit

Post-Brexit, the place for those thinking of an alternative to the UK

start-ups

#4 globally for starting a business, full value chain from R&D to acceleration

smart

Young, well-educated and highly experienced workforce

roi

#10 globally for ease of doing business, with low tax and bureaucracy

friendly

People care about where you are going, not where you are from

fit

Does not utilise ICT to full potential in business, Estonian solutions are of interest

# Why Estonia?

digital		World's 1 <sup>st</sup> digital society, ultra high usage in business, life and government
e-gov		#1 globally in e-Governance, saving 2% of GDP and engaging citizens better
cyber		#1 globally, home to NATO and EU centres of excellence and world thought leadership
fintech		99.8% of financial sector transactions are done digitally
unique		Experience in real time, process automation, e-id, blockchain and smart contracts
start-ups		Product and process innovation masters, home of TransferWise
smart		Estonian kids rank in top 10 globally for science, reading and maths
proof		#5 globally for impact of ICT on business models and B2B transactions
friendly		We want the world to know about Estonia (but we are a bit quiet at first!)
fit		Numerous opportunities from solutions to strategic partnership, in Estonia and region
